

Sak Sreynich

Frontend Software Engineer | Next.js | TypeScript | Tailwind CSS

✉ sreynichsakk@gmail.com ☎ 093200971 📍 Phnom Penh 🌐 <https://portfolio-lyart-nine-14.vercel.app/>

Summary

Result-oriented Frontend Developer with expertise in **React.js**, **Next.js**, and **UmiJS**, specializing in **SEO optimization** and high-performance web applications. Proficient in building professional-grade user interfaces using **Ant Design** and **Tailwind CSS**. Experienced in seamless **API integration** and real-time state management. Currently expanding technical capabilities into **Backend development with NestJS and Node.js** to build scalable fullstack applications. Passionate about turning **Figma designs** into pixel-perfect code and delivering exceptional user experiences.

Education

University of South East Asia	Bachelor
Information Technology	Siem Reap • 2021-2024
Phnom Srok High School	Bac II
Science	Banteay MeanChey • 2020

Experience

ICG Gaming	Poipet
Software Developer	2024-2026

- Developed responsive and high-performance web applications using React, Next.js, and Tailwind CSS.
- Integrated RESTful APIs, managed application state, and optimized frontend performance and SEO using SSR/SSG.
- Strong debugging and problem-solving skills across frontend, backend, and API integration.
- Developed online casino platforms with complex business logic and system workflows.
- Built mini-game landing pages and interactive promotional websites.
- Implemented authentication systems, payment integration, admin dashboards, and realtime features.
- Worked with MySQL, PostgreSQL, and Prisma for database management and backend integration.
- Optimized application speed, security, and resolved production issues in live environments.
- Managed version control and collaborative workflows using Git, GitHub, and GitLab.
- Deployed and maintained web applications using Vercel.
- Collaborated with international teams in English to resolve technical issues and improve frontend architecture.

ICG Gaming	Poipet
UI/UX Designer	2024-2025

- Designed high-fidelity wireframes and interactive prototypes using Figma for web and gaming platforms.
- Created design systems and visual guidelines to maintain consistent branding across web and mobile interfaces.
- Conducted user research and usability testing to improve user journeys and interface experiences.
- Bridged the gap between design and development by transforming UI/UX concepts into functional frontend interfaces.

Casbiz Technology	Siem Reap
C# internship	2023

- Built strong skills in C# and Object-Oriented Programming (OOP).
- Developed and maintained software modules and desktop applications.

- Debugged, optimized, and improved application performance with the development team.
- Worked with databases and system workflow design.
- Followed SDLC practices and contributed in daily stand-up meetings.

Skills

HTML	CSS	JavaScript	ReactJs	Next.js	TypeScript
Tailwind CSS	UmiJs	Ant Design	Material UI	Figma Design	NodeJs
NestJS	Prisma	PostgreSQL	Git		

Projects

Interactive Gaming Platform UI (Frontend-Only)	2026
Tech Stack: UmiJS, Ant Design, Tailwind CSS
